

## Silvio's Brazilian BBQ Service Descriptions

Our company specializes in providing our clients with an assortment of mesquite grilled Brazilian style BBQ meats including tri-tip, chicken, picanha, seafood, ribs, and calabreza (Brazilian sausage), as well as your American favorites such as pulled pork, Mississippi style dry-rub ribs, burgers, dogs, and steaks. We also provide an assortment of fresh traditional Brazilian and American side dishes and salads, fusion salads (created with a twist by our chefs), drinks and desserts to choose from. We emulate the style of food you would experience if you came to our home in Brazil for an old fashioned Brazilian style back yard BBQ.

We realize an important characteristic for us to have for our clients is to be flexible in our menus and service. To cater to your needs we provide different types of service for your convenience.

We can provide:

- **Full Service** on site corporate and private events for up to a thousand and as few as twenty guests. At these events we come to your location. Whether it's your back yard, loading dock, park, or parking lot, our crews set up the BBQ's and equipment on location, and provides you with the ultimate Brazilian BBQ experience
- **Drop-Off** service for events that range from fifteen to three hundred guests. For businesses, our drop off service is perfect for luncheons, open houses, sales pushes, seminars, and business meetings. When you're throwing your own party, our drop off service comes in handy for house warming parties, birthday or graduation parties, and pot-luck picnics to name a few!
- **Set Up and Go®** service is very popular for clients who want the elegance of a catered event but don't need the food cooked on site or a staff present. For a small fee, our staff will provide and set up all the necessary professional equipment to serve your guests then return and pick up the equipment at an agreed upon time. We can also leave an attendant on site if you would prefer. This of course means **NO CLEANING** for you!
- **Bar and Beverage Services** are available to our clients for their enjoyment. We provide the entire spectrum of liquor, wine, and beer options as well as specialty drinks and specialty drink menu's for those special occasions.
- **Box lunches** have become very popular for their ease of use and functionality. We are in the process of putting together some excellent box lunch packages for your needs including your choice of BBQ sandwich with a combination of chips, sides, salads, cookies, and drinks.

Different levels of service charges are assumed for each type of service. Please see our "Services Rate Card" for amounts. Our service charges cover the additional expenses incurred when executing an event and are not added to assume more profit. These costs include event insurance, workman's comp, van/truck rentals, administrative costs, charcoal (in California, special fees are levied against company's that produce particulate matter that is dispersed into the atmosphere), gas and travel fees, etc.
