# "MEAT" THE BBQ MASTERS!

Silvio Correa of Sao Paulo Brazil, and Doug Howarth, from upstate New York, started their business as a catering company in 2003. We wanted to bring the joys of a real "back yard" Brazilian BBQ experience to our guests, similar to what you would experience if Silvio had you over to his home in Brazil for a family BBQ. We wanted to use those delicious Brazilian style BBQ meats to make an American style menu including BBQ sandwiches, fresh salads, BBQ plates, and rice bowls. We started off by making our BBQ in our own backyards or rented kitchens then donning Silvio's BBQ t-shirts and delivering to offices all over LA! As business grew we opened our first catering kitchen in Torrance in 2006. From here we started catering large events around Southern California and selling to the public. The events grew from small street fairs, jiu-jitsu tournaments, and farmers markets to huge events including the AVP, Pan American games, and concerts like Coachella, Stage Coach, and the Vans Warp tour. We opened our cozy little joint on the pier in Hermosa Beach in late 2008. Since then we've included some American favorites to the menu like Black Angus burgers, pulled pork, and Mississippi style ribs. We're glad you decided to join us today and hope you have a great time and come visit us again!

Obrigado!

(That means thanks!)
